1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Tilley in view of Siebenga.

Tilley discloses a bale handling apparatus including frame 11, platform 14 and loading mechanism 20-23 having a pick-up mechanism 23 with pivotable arms. Tilley's loading mechanism 20-23 lacks the claimed load platform having one or more grabbing hooks that couple the bale to the loading platform. Siebenga discloses a bale handling apparatus including frame 12, platform 22 and loading mechanism 26 having load platform 44 with pivotable arms 54 and grabbing hooks 76. It would have been obvious to substitute the loading mechanism 26 of Siebenga for the bale pick-up mechanism 23 of Tilley's loading mechanism since Siebenga's loading mechanism 26 would have been an art-recognized means for transferring a bale from the ground to the platform of Tilley's bale handling apparatus.

3. Claims 1, 3-6 and 8-20 are allowable.
